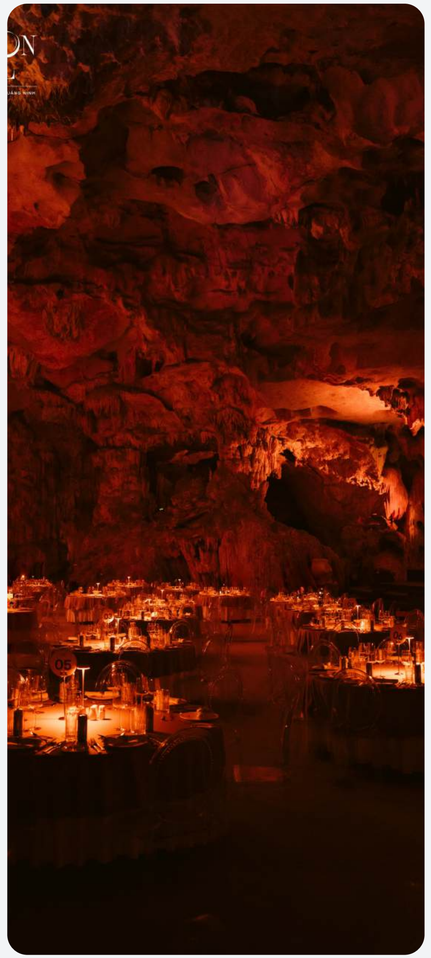
Immersive Experience In a Living Heritage Space

Located within the Vung Duc Cave Complex in Cam Pha Ward, Quang Ninh Province, Dragon Pearl Cave is a one-of-a-kind destination that seamlessly blends magnificent natural landscapes with legendary cultural heritage. Spanning over 4,000m2 by natural domes towering 16 meters high, illuminated by light streaming through crevices, with a year-round temperature of 23-25˚C, the cave offers a mesmerizing and comfortable experience for all visitors.

More than a scenic site, Dragon Pearl Cave demonstrates over four millennia of geological history. Formed by the long-term erosion of limestone by seawater, this marine cave features crystallized carbonate rock structures and layers of rare ancient fossils – evidence of geological shifts in Northern Vietnam.



Immersive Liveshow In the Cave

A Mythical Journey Through Light, Sound, and Legend

Set in the awe-inspiring natural amphitheater of Dragon Pearl Cave, the shows celebrate the mythical history of the Dragon lands and unfold a powerful story through light, sound, and captivating stagecraft by telling the legend of the Mother Dragon and her mystical pearl, weaving themes of courage and peace. Through emotional storytelling, expressive contemporary dance, acrobatics, immersive visual effects and especially the natural cave backdrops, audiences are transported into a dreamlike retelling of Vietnam’s sacred legends.
